UNPLANNED

UNPLANNED, is a movie based on the true story of Abby Johnson, a former award-winning director of Planned Parenthood, who is now a pro-life activist. The Right to Life League was the first pro-life organization to financially support UNPLANNED, helping launch the movie that is changing hearts and minds on the issue of abortion.

UNPLANNED, has the power to expose the truth about abortion, as well as to heal, deliver and transform our culture. This film that speaks of one of the most polarizing topics of our day.

UNPLANNED is an eye-opener. A woman, who was once one of abortion's most passionate advocate, allows us to look inside the abortion industry. UNPLANNED is the inspiring true story of one woman's journey of transformation. All Abby Johnson ever wanted to do was to help women. As one of the youngest Planned Parenthood clinic directors in the nation, she was involved in upwards of 22,000 abortions and counselled countless women about their reproductive choices. Her passion surrounding a woman's right to choose even led her to become a spokesperson for Planned Parenthood. Until the day she saw something that changed everything.
